Year we set out to be the best in entertainment software. True, it was a lofty goal, but each and every one of you took it as a personal challenge. And through hard work, imagination and perseverance—that goal has been reached.

As you read through the pages of your yearbook, reflect and appreciate what you've accomplished this year. But also remember that being the best holds a certain responsibility. You must maintain those uncompromising standards and strive to get even better.

Congratulations Accoladians. Your future is filled with promise and hope. And, if I could bestow any words of advice to help you grow, it would be these:

"It's not whether you win or lose, it's how you play the games." — Allan Epstein, President

The animated "Strobe-O-Stroke" box allows you to aim your serve and select your shot type (top spin, slice, etc.) How will your opponent return the serve? Forehand or backhand? Lob or smash? Like real tennis, timing is critical.

The most realistic action/strategy

computer tennis game! Serve & Volley captures the action and strategy of real tennis in a feature-packed simulation. The 3-D view of the court includes action windows displaying "Strobe-O-Stroke" graphics. Choose from a variety of strokes, match or tournament play, three levels of difficulty and three different court surfaces. You can even adjust your playing attributes and save your stats.

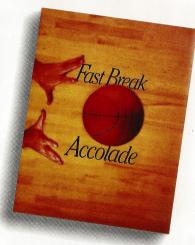

Come face-to-face with a heavyweight champion! Enter the ring with T.K.O. and look straight into the eyes of a fighter bent on knocking your block off. T.K.O. gives you the feel of real boxing as you go glove-to-glove against a variety of computer opponents or another player. You can actually see the wear and tear of the fight on each boxer: black eyes, fat lips, swollen cheeks... even bruised egos!

In Sports

Each player has his own individual talents and strengths. And Fast Break comes with a playbook of 15 offensive and five defensive pro-style plays. You can even design your own offensive plays with the exclusive "Playmaker" feature.

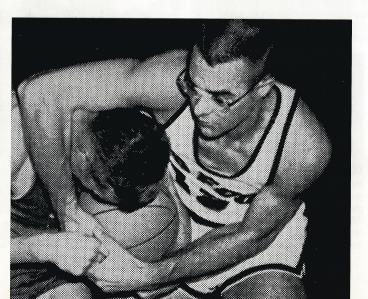

Three-on-three basketball with full court action! Fast Break is the first three-on-three, full-court basketball game that lets you select and run the offense and defense.

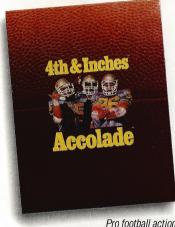

No other basketball game gives you this much control and playability. You get more players, more plays and more shots. The network television court perspective puts you right in the middle of the elbows, slam dunks and squeaky sneakers.

There's nowhere to run — nowhere to hide. You're toe-to-toe with a prize fighter who's jabbing at your jaw. Dance around the canvas, then attack with a flurry of ounches. Throw a right — it lands! A welt shines under his eye. You've got him on the roges!
